SUPER STRENGTH CLEANER  
FOR HEAVILY CONTAMINATED,  
DIRTY HEATING SYSTEMS

- Fast-acting, citrate cleaner to remove all types of debris to restore energy efficiency
- Accelerates the powerflushing and cleaning process
  - Non-foaming, faster to flush from system
  - Allows compliance with BS 7593:2019
    - No neutraliser required

# FERNOX POWER CLEANER F8

Super strength, high performance cleaner for use on heavily contaminated, dirty and problematic central heating systems.

Its fast-acting, citrate-based, pH neutral formulation removes debris, sludge and scale without the need to neutralise.

## Why use Power Cleaner F8?

- Restores efficiency of existing, dirty systems
- Accelerates all cleaning processes: powerflushing, manual and magnetic flushes
- Compatible with all metals and materials commonly used in heating systems, including aluminium
- Non-foaming cleaner to reduce flushing time - saving time on-site
- Low environmental impact – phosphate, nitrite and nitrate free formulation - dispose to foul drain
